Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "the same or different" in claims 1 and 6 is alternative and indefinite. The phrases "the height of said panels ... less than 90% of the height at any of said corners" in claims 1 and 6 and "the height of said panels ... less than 90% of the height at any of said fold lie[sic]" in claim 5 are inaccurate and indefinite because the height between the fold line 102 and the portion next to the fold line in direction toward the panel 104, 107 is the same as the height at the corner. In claim 1, the phrase "shrink wrapped" lacks antecedent basis. Claim 2 is double recitation of claim 1. The term "ant" in claim 3 is incomplete and indefinite. The phrase "said fold lie" in claim 5 is incomplete and indefinite. The phrase "one of said top and bottom ... of the fold line" in claim 5 is vague and indefinite because it has no clear meaning.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated by Jones (5,676,245). To the extent that the Examiner can determine the scope of the claim, Jones discloses a liner blank

(10) comprising at least three panels (36, 39, 36) separated by at least two transverse fold lines (18, 18) and having a top and a bottom and the height of at least one of the panels (39) at a point intermediate the fold lines is less than 90% of the height of any of the fold lines (Figure 1).

Claim Rejections - 35 USC § 103

- 5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 6. Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jones (5,676,245) in view of Official Notice and Coles et al. (4,427,108; hereinafter Coles'108). To the extent that the Examiner can determine the scope of the claims, Jones discloses an assembly comprising a liner blank (10) for holding an article including at least three panels (36, 39, 36) separated by at least two transverse fold lines (18, 18) and having a top and a bottom and the height of at least one of the panels (39) at a point intermediate the fold lines is less than 90% of the height of any of the fold lines. Jones further discloses a wrap (15) wrapped around a portion of the liner and the article (Figure 1). Jones also discloses the other claimed limitations except for a shrink wrap being wrapped around the liner and the article. Official Notice is taken of the old and conventional practice of providing a shrink wrap wrapped around a plurality of packages and their support. Coles'108, cited by way of example only, shows an assembly comprising a liner (1, 12) for holding a plurality of packages and a shrink wrap wrapped around the liner and the packages for better protecting the packages (Figures 1-2). It would have been obvious to one

having ordinary skill in the art in view of Official Notice and Coles'108 to modify the assembly of Jones so it includes a shrink wrap wrapped around the liner and the article for better protecting the article.
